Out of the 38,944 candidates there were **19,490** male candidates and **19,454** female candidates.

The analysis of the above results shows that the proportion of candidates obtaining Grade C or better is **35.3%** compared to 41.0% in 2012.

The public is also informed that **Grade U** has changed meaning from last year in which it denoted that a candidate did not meet minimum requirements for Grade E or an overall grade. Symbol **X** on the results is not a grade but it is used to denote that a candidate did not meet minimum requirements for the award of an overall grade.
